

WHEELS AND WAVES

Brett

BIARRITZ 2023

Its **monobloc steel top-bar** is **laser-engraved** to imprint the festival's DNA.

The sharp lines of its **ribbed cap** underline its mechanical inspiration.

From the alliance between the eyewear brand BRETT and the festival WHEELS & WAVES was born an **exclusive frame** that reflects their common values.

WHEELS & WAVES

More than just a festival, WHEELS & WAVES is a state of mind, a particular aesthetic, inspired by the riding culture. It is an invitation to immersive and timeless experiences, mixing various influences: motorcycle, surf, skate, music, art...

BRETT

Even if BRETT finds its inspiration in the heroes from the 70's, whether they are legendary pilots or iconic characters of cult series, the brand continues to write its history with the modernday heroes. Therefore, this collaboration with Jérôme and Julien, co-founders of the festival, was an obvious choice.

SPRINT SUN

This model captures the intense, thrilling spirit of the PUNK'S PEAK Sprint Race - 400m of mechanical duels on the asphalt cordon lacerating the landscape at the summit of Mount Jaizkibel. Electricity in the air, the excitement begins to build. A real adrenalin shot from the moment the starting gun is fired.

Brand: **BRETT**
